-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, and 20 drawn to a method of producing a super-absorbent polymer product and the product made, classified in class, 527 subclass 103.
 - II. Claims 15-19, drawn to a method of using a super-absorbent polymer product, classified in class 47, subclass 57.6.
2. The inventions are distinct, each from the other because of the following reasons:
Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, by Applicant's own admission (Specification, p.1, ¶ [0002]), the product made in Invention I can be used in a materially different process of using such as in diapers, catamenials, hospital bed pads, etc.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 3644

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. If Applicant chooses to elect to prosecute Invention II on the merits, Applicant is required to submit at least claims 15-17 and 19 in independent form directed to a method of using a superabsorbent polymer, or in dependent form, depending from an independent claim directed to a method of using a superabsorbent polymer, since a method of producing and a method of using are two materially different inventions and should be claimed properly as such. Applicant should include all essential limitations in the independent claim(s).

Similarly, should applicant choose to prosecute Invention I, claim 20 should be newly submitted in independent form directed to a superabsorbent polymer product, since presently said claim is improperly dependent on a claim that is directed toward a method of producing a superabsorbent polymer. Applicant should include all essential limitations in the independent claim.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan C. Alimenti whose telephone number is 703-306-0360. The examiner can normally be reached on Monday-Friday, 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael J. Carone can be reached on 703-306-4198. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
